CHAPTER-6

IMPLEMENTATION

6.1 IMPLEMENTATION ENVIORNMENT
6.2 SCREENSHOTS OF FORMS, REPORTS AND INTERFACES

6.1 IMPLEMENTATION ENVIORNMENT

Basically we worked on the wordpress which led us to completion of our application.
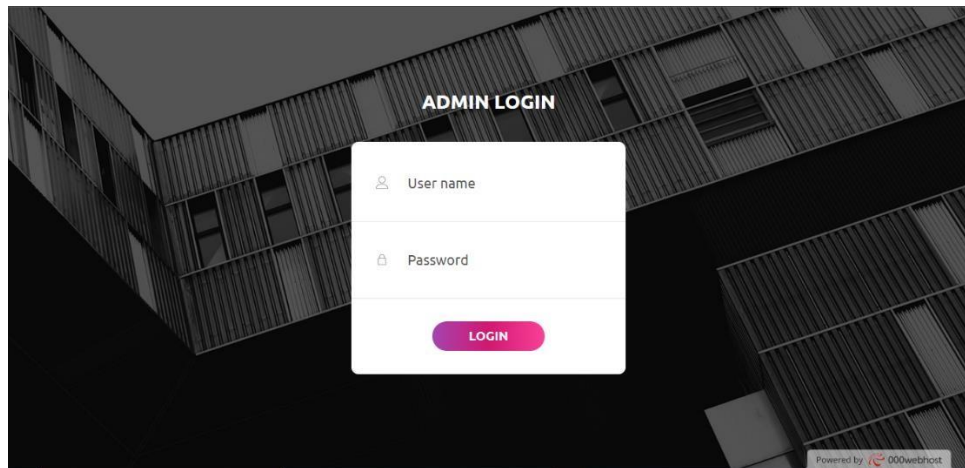

❖ **GUI vs Non-GUI:**
- This application has GUI based IMPLEMENTATION ENVIORNMENT.
- As we all know that every system has GUI to interact with user and with help of wordpress we can easily manage our admin panels as GUI .
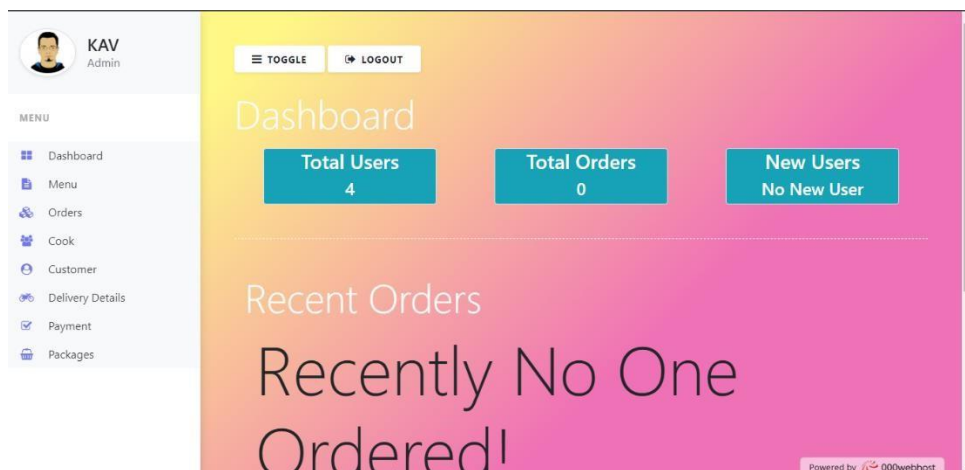

❖ **Single vs Multiuser:**
- Our project has multiuser environment.
- One is admin and are the one who uses application.

## 6.2 SCREENSHOTS OF FORMS, REPORTS AND INTERFACES

- Admin Panel :-

  • First login into the admin panel

  • Admin enters the admin panel.
